RE: Stormwater Utility Program

The City Council approved the stormwater utility ordinance on July 1, 2019.

On August 22, 2019, the City Council approved a resolution for the stormwater utility rate structure based on Equivalent Residential Units (ERUs).

You are receiving this letter because your revised monthly stormwater utility charge changed from the original estimate. This charge will be effective with your city utility bill due November 15, 2019.

To view the charge on your parcel, go to <http://bit.ly/jamestownstorm>, under **Quick Links** click on **Storm Water Utility Map**. Type in your property address or Parcel Identification Number (PIN). Alternatively, you can zoom into your property and click on it for the information. Scroll down within the information box for your property to get the Stormwater Utility Charge, which is listed after the Equivalent Residential Units.

If you still have questions about the monthly Stormwater Utility Charge, contact Utility Billing Staff at Utilities@JamestownND.gov or 701-252-5900.
